

GYNE FUNCTION 1 vs GYNE FUNCTION 2

Both formulas address common gynecological problems.

GYNE FUNCTION 1 contains herbs that nourish the Blood and astringe the Blood to stop abnormal bleeding. It is suitable for conditions where there is excessive blood loss from the vagina, e.g. dysfunctional uterine bleeding, menorrhagia, metrorrhagia and menometrorrhagia.

GYNE FUNCTION 2 contains herbs that clear Damp-Heat and clear Heat Toxin with a demonstrated action against *Candida albicans* and *Trichomonas vaginalis*. It is thus used in various conditions characterized by abnormal vaginal discharge.

| GYNE FUNCTION 1 Formula (CM183) | GYNE FUNCTION 2 Formula (CM134) |
